

EMPLOYMENT OPPORTUNITY WITH PSPC

Full Time Contract Position

Salary: \$67,974 - \$82,568

The Mi'kmaw Economic Benefits Office (MEBO) has collaborated with Public Services and Procurement Canada (PSPC) to help them recruit and hire community members. This employment opportunity would be suited for Mi'kmaq Post-Secondary graduates. This initiative is meant to increase Indigenous representation in PSPC's workforce.

Job Title: Environmental Officer (PC-01)

Location: Nova Scotia

Salary: \$67,974 - \$82,568

Organization: Public Services and Procurement Canada (PSPC) - Government of Canada

Application Deadline: April 19, 2024

Why Work at PSPC:

At Public Services Procurement Canada (PSPC), we are committed to creating a diverse and inclusive workplace. We want our employees to be who they are – people with a variety of ideas, abilities and lived experiences. Our differences are what make us strong and innovative. We are also committed to your well-being and work-life balance.

As a federal organization, we offer:

- Flexible work arrangements – a hybrid work environment (combination of working in the office and remote work); flexible hours and option of compressed work week schedules
- Excellent benefits that include pensions, medical and dental plans
- Opportunities for growth, skill and career development
- Competitive salaries with annual increases
- Paid vacation time and sick leave

What We Do:

Environmental Services (ES) comprises a branch within Real Property Services (RPS) which is within PSPC. RPS is the government's real property centre of expertise, managing one of the largest and most diverse portfolios of real estate in Canada. RPS also provides a full range of real property services. Within this context, ES provides services in relation to environmental compliance and stewardship and contaminated site management, environmental evaluations and assessment, and sustainable development. ES also provides strategic advice with respect to meeting government goals and priorities, monitoring legislative changes, and developing corresponding operational requirements and compliance

strategies. Work performed for other government departments is carried out on a transactional basis, leveraging private sector expertise and resources.

What you will do:

The individual's responsibilities would likely concentrate on supporting a program focus on contaminated sites and remediation projects, potentially including assistance in managing PSPC's legacy portfolio of controlled contaminated sites and mine water management.

Additional duties:

- Aiding federal departments in overseeing their environmental obligations;
- Program Management;
- Strategic management and planning services related to contaminated sites;
- Impact assessment; and
- Indigenous consultation.

We are looking for someone who:

- Has a degree from a recognized post-secondary institution with acceptable specialization in physics, environmental studies, geology, chemistry or some other science relevant to the position.
- Has Experience in conducting or reviewing environmental studies and assessments.
- Works well with others
- Takes Action to get things done
- Provides excellent service to the clients they serve
- Has Excellent communication skills, verbally and in writing

The Public Service of Canada is committed to building a diverse workforce reflective of Canadian society.

In order for you to be considered, you must self-declare as a member the following Employment Equity group: Indigenous Peoples.

If this sounds like the opportunity for you, then apply now by submitting your resume to careers@mebons.ca with the subject line "PSPC" no later than April 19, 2024.
